POLICY
SE IA "BORYSPIL"

The policy of BORYSPIL International Airport SE defines our key principles and values that contribute to improving the efficiency and effectiveness of the company's operations and achieving our strategic goals.

FLIGHT SAFETY

IS OUR TOP PRIORITY

The management of BORYSPIL International Airport commits to providing the company with all necessary resources to implement the flight safety policy.

We commit and require aviation operations entities conducting their activities at the airport:

- to promote the formation and maintenance of a positive flight safety culture;
- to ensure that flight safety policy is understood, implemented and complied with at all organizational levels;
- to comply with all applicable legal requirements, provide services in accordance with IATA, ICAO, EASA international standards, and implement best practices in flight safety.

We guarantee that ensuring flight safety is the primary duty of all company managers.

We encourage everyone to freely report any hazards that could negatively impact flight safety through the voluntary reporting system on flight safety

All personnel of the Airport and other aviation entities that operate in the airport restricted area are responsible for providing any information that could negatively affect flight safety.

We guarantee that employees will not be penalized in any way for submitting such information, however, this policy does not apply to illegal actions or willful disregard of accepted rules or procedures.

QUALITY AND SUSTAINABLE DEVELOPMENT

Our goal is to provide our customers with the highest level of service and promote the sustainable development of our company.

We strive to be leaders in the aviation industry and implement the best latest practices and technologies in all aspects of our activities.

We strive to be leaders in the aviation industry and to introduce the best practices and technologies in all aspects of our activities.

We commit to:
- constantly improve and optimize processes to increase efficiency as determined by ISO 9001:2015;
- develop company's infrastructure to meet public demand for air transportation;
- actively attract new airlines and expand the route network;
- ensure company resilience to emergencies.

WE COMMIT AND REQUIRE

aviation operators conducting their activities at the Airport to comply with all applicable legal requirements and recommended IATA practices, adhere to norms and rules of business communication and ethics, provide services of an appropriate level of quality and meet the needs of stakeholders.

ENVIRONMENT AND SOCIAL RESPONSIBILITY

BORYSPIL INTERNATIONAL AIRPORT IS AWARE OF ITS SOCIAL RESPONSIBILITY IN PROTECTING THE ENVIRONMENT.

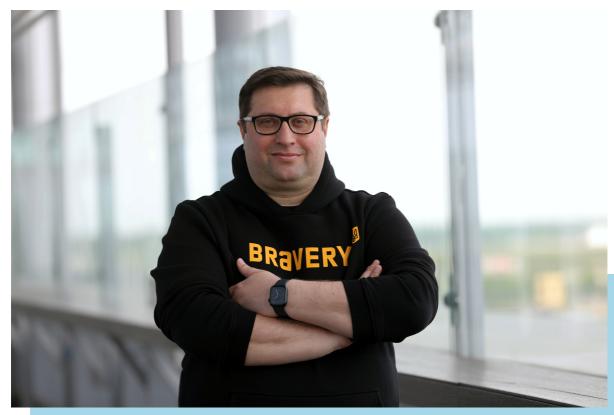

We commit to provide an effective environmental management and monitoring system as determined by ISO 14001:2015, covering daily operations and aimed at:

- Responsible use of natural resources;
- Minimizing harmful impacts on the environment (including water bodies, soil and air);
- Economical consumption of electricity and energy sources;
- Waste management.

We implement and require adherence to the principles of environmental responsibility from our customers, suppliers, subcontractors and other businesses companies operating at the airport. In particular, we and our partners, without exception, are obliged to comply with all environmental laws and regulations in the field of environmental protection, reasonably consume resources and constantly contribute to minimizing harmful effects on the environment.

This policy serves as the basis for our actions and decisions aimed at meeting the needs of our customers and the public, improving Boryspil Airport operations, developing the aviation industry, and increasing the investment attractiveness of the country as a whole.
